

1. Overview

2. Get Started

Thank you for visiting Elggzone. You have downloaded 'Mobilize' and the downloaded folder should contain:

1. mobilize/
2. info/

FEATURES:

- Plugin Options Panel
- Define header color
- Display Custom Logo
- Friendspicker setting
- Front Page Welcome message
- Custom index support
- Walled garden support
- Language support
- Version Elgg 1.8

SUMMARY:

Mobilize serve your mobile visitors an alternate layout for the small screen. Mobilize use your normal theme, and is only in use when the plugin detects that your visitors are using a mobile device.

INSTALLATION:

Installing Mobilize is pretty straightforward, as with all Elgg plugins.

Upload mobilize folder to www.yourelgginstallation.com/mod/ and enable the plugin in Elgg admin panel. Leave it at the bottom of the plugin list.

Go to elgg Administration / Settings / Mobilize and configure the options for mobilize.

NOTES:

Please visit Elggzone at www.perjensen-online.dk for more themes and plugins.
